## INDEPENDENT AUDITOR'S REPORT

Board of Supervisors  
Gloucester County Soil Conservation District  
14 Parke Place Blvd, Suite C  
Sewell, New Jersey 08080

Gentlemen:

We have audited the accompanying financial statements of the Gloucester County Soil Conservation District as of June 30, 2012 and the related statements of activities and changes in net assets and of cash flows for the year then ended. These financial statements are the responsibility of the Gloucester Soil Conservation District's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Gloucester County Soil Conservation District's 2011 financial statements and in our report dated August 17, 2012, we expressed unqualified opinions on the respective financial statements of financial position, activities and changes in net assets and cash flows.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in **Government Auditing Standards** issued by the Comptroller General of the United States; and the audit requirements prescribed by the Department of Agriculture's Manual, as required by the New Jersey State Soil Conservation Committee. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Gloucester County Soil Conservation District as of June 30, 2012, and the changes in net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America and requirements prescribed by the State Soil Conservation Committee, Department of Agriculture, State of New Jersey.

In accordance with **Government Auditing Standards**, we have also issued a report dated August 17, 2012 on our consideration of the Gloucester County Soil Conservation District's internal control over financial reporting and our test of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the financial statements of the Gloucester County Soil District taken as a whole. The accompanying supplementary schedules of expenditures of budget versus actual expenditures and federal and state grant activity are presented for purposes of additional analysis as required by the State of New Jersey, Department of Agriculture, and State Soil Conservation Committee. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Respectfully submitted,

**NIGHTLINGER, COLAVITA & VOLPA, P.A.**

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Supervisors  
Gloucester County Soil Conservation District  
14 Parke Place Blvd, Suite C  
Sewell, New Jersey 08080

Gentlemen:

We have audited the financial statements of the Gloucester County Soil Conservation District as of and for the year ended June 30, 2012, and have issued our report thereon dated August 17, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, standards applicable to financial audits contained in **Government Auditing Standards**, issued by the Comptroller General of the United States and audit requirements prescribed by the State Soil Conservation Committee, Department of Agriculture, State of New Jersey.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with such provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under **Government Auditing Standards**.

This report is intended solely for the information and use of management, the Board of Supervisors, and Federal and State awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Respectfully submitted,

**NIGHTLINGER, COLAVITA & VOLPA, P.A.**
